Executive Headteacher Mr. Jared Brading
Associate Head Mrs. Claire Mitchell

A Summary of St. Mary's School Development Plan 2019-2020

Priority	What this will look like
To approve and adopt new Relationships, Sex Education (RSE) policy and resources.	New RSE policy shared with staff, parents and governors so all stakeholders are clear about what is being taught.
To refine the teaching and the curriculum content of History, Geography and Science.	The knowledge and skills that are needed by pupils are fully developed via a clear progression, building year on year, on what has been taught previously and towards clearly defined end points.
Develop a shared IT platform across Federation.	New shared platform will assist delivery of curriculum and ensure uniformity of planning, assessment, T&L, admissions and general administration.
To increase proportion of children in the early years reaching a good level of development (GLD).	Number of pupils achieving a GLD is at or above national averages.
To ensure Teaching Assistants are used effectively to enhance pupil's attainment.	Teachers and teaching assistants have greater clarity about expectations of their roles and are able to support children to make rapid progress in lessons.
To minimise the impact of behaviour on learning, through a whole school clear and consistent approach.	Clear routines and expectations have a positive impact on the learning behaviours of the class and individuals.
