Understanding the World	Physical	Expressive Art and Design
• Differences and similarities between ourselves and others. • Parts of the human body. • Talking about our families.	• Developing our gross motor skills, climbing and jumping and hopping in our playground. • Riding the bikes and using the bouncy hoppers. • Developing our fine motor skills using tweezers and other tools.	• Looking at ourselves and painting self-portraits. • Become familiar with our creative shelves and learn how to use different materials and media independently. • Explore a number of different painting techniques and methods.
	 	 

Dear Parents/Carers,

Welcome to Nursery!

I am looking forward to meeting everyone and to teach your children this year!

This term is all about '*Ourselves*' – getting to know each other and sharing what makes each of us special. At this first stage on their journey through school, there is so much to learn, and the best way to do that is through exploration and play. The nursery classroom provides opportunities to explore and develop every area of the curriculum.

Miss Hudson
