

Maths	English	Science
Children will focus on decimals fractions this term. They will represent decimals using place value charts, number lines and practical resources, compare and order decimals, and recognise equivalent fractions and decimals. How to help at home: Look for decimals in everyday life, such as prices, measurements, distances and weights.	In English, we are reading Skellig. Children will eventually write a diary entry in the character of Michael. We will also be putting a big focus on our Guided Comprehension skills (VIPERS) over a range of texts. How to help at home: Talk about the story together and encourage your child to keep their own short diary to practise writing in role.	This term, children will explore forces. They will learn about balanced and unbalanced forces and carry out experiments to see how variables affect them. How to help at home:: Visit science or natural history museums to see forces in action through interactive exhibits.
		
Class teacher: Mrs Jerry Support Staff: Mrs Viegas	Our learning in year 5 Autumn 1 - 2026 	Homework handed out on Thursdays to be returned on Tuesday PE days: Wednesday and Thursday
RE	Art	Geography
We will explore what makes people truly happy and how God's teachings can help us live good and loving lives. How to help at home: Talk together about what makes your family happy and what it means to live a good life. Read or discuss one of the Ten Commandments and think about how it can guide everyday choices.	In Art, children will develop their drawing skills by practising perspective, using different sources for inspiration, and exploring how to show texture. How to help at home: Encourage sketching from real life, such as people, objects, or buildings, and talk about how to show depth and detail.	This term our topic is 'Who are our European neighbours?' Children will learn about Europe's physical features and compare two contrasting regions. How to help at home: Look at maps or atlases together, locate different European countries, and talk about how places are similar or different to the UK.

		
Music	PE	Computing
This half term, Year 5 will be developing their drumming skills on the djembe, working on their sense of rhythm, timing, coordination and musical expression. How to help at home: Encourage your child to practise simple rhythms using household objects.	This term, children will be developing control, changing direction and speed, and creating space to attack. How to help at home: Watch basketball and spot attacking and defending.	This term, children will take part in programming challenges with the Chelsea Football Club Foundation, using Sphero BOLT robots. How to help at home: Encourage your child to explain their programs or explore coding games.
		
PSHE	Classroom routines Pupil of the day Emotional understanding Zones of Regulation (ZoR)	
Italian 	We will be learning: Days of the week Months of the year. At Home Tip: Encourage your child to practise saying the date aloud each day in Italian.
